

END POINT ASSESSMENT TRAINING

NCFE has developed a CPD programme for SCTP members to help you prepare for End Point Assessments (EPA).

The half-day programme will go through how EPAs will work, who should be involved from your organisation and the different types of tests.

Their experts will also use specific examples from the Healthcare and Customer Service standards to go into more detail.

The workshop is aimed at anyone in your organisation with responsibility for apprenticeships, EPA, managing tutors/assessors, your curriculum, learner success.

Course Content:

- An overview of how assessment of standards work.
- How is this different to assessment of frameworks?
- What your organisation should have in place to ensure success at EPA.
- How to prepare for Customer Service standard EPA.
- How to prepare for Healthcare EPA.
