

## Communication From Claire Witz, C2C LEP re ESF Calls

At the recent Coast to Capital ESF workshop regarding the forthcoming Direct Calls attendees mentioned that they would like to keep up the momentum on partnership and project idea discussions.

I'm now emailing you as you were either an attendee, were on the waiting list for the workshop or have expressed an interest since the workshop to invite you to join a Trello team that I have set up to continue these discussions regarding the 3 forthcoming calls. Trello is an online collaboration tool that uses boards and cards to share information, discuss/comment on topics and help to plan the way forward.

My idea is to provide interested parties with the opportunity to use Trello to discuss ideas, scope out partners for projects and discuss match funding. For more information on Trello and a guide to getting started please see the link - <https://trello.com/guide>

I will be facilitating Trello and once potential partnerships are at an appropriate stage in discussions I will be happy to arrange face to face meetings to more fully formulate ideas and outline applications.

**If you would like to become a member of the C2C ESF upcoming Direct Calls team on Trello please could I ask you to email me and let me know which calls you are interested in.**

As a reminder the calls are:
