

LEVEL 3 AWARD

Undertaking End-Point Assessment

Are you a qualified vocational assessor looking to conduct end-point assessment in future?

KATO have partnered with SDN to offer the Level 3 Award in Undertaking End-Point Assessment at a reduced rate for network members. This is a new **blended learning** course designed for qualified assessors who are looking to deliver end-point assessment in future.

It will provide you with the building blocks to carry out end-point assessment, and help you to get ahead of the game. SDN facilitators have first-hand experience of what end-point assessment looks like in practice, and have helped many of the first EPAOs (and their assessor teams) to start delivering end-point assessment.

Course structure, dates and locations

A series of online learning videos will need to be completed in early September ahead of the two training days on **Tues 11th** and **Weds 12th September** in Kent (*venue TBC*)

Entry requirements

This blended learning course is for qualified assessors (holding either TAQA, A1 Awards or similar). You should also have proven occupational experience.

Cost

KATO have secured a reduced rate for network members of £265+VAT per person

Find out the details, and book your place, [here](#)

"The course has been outstanding. Very high standard of training from highly experienced and credible practitioners"

"Vital course for anyone who is considering a career as an end-point assessor"
