

Free Embedding English & Maths in Apprenticeships Webinar for SCTP Members

SCTP is delighted to invite you to join us for a special SCTP members' 'Embedding Maths and English in Apprenticeships' webinar, delivered in partnership with the [Education & Training Foundation](#) (ETF). This webinar will help you find and use appropriate resources, and identify appropriate assessment methods, for an embedded approach to the delivery of maths and English in apprenticeships.

The session will be delivered by the ETF via Zoom meetings on **Wednesday 30 September 2020 at 09.30 - 11.45.**

Session Overview:

- How to identify resources to develop staff skills as well as how to identify the staff skills needed for embedding maths and English into authentic workplace practice.
- Discussing how to identify, adapt and create resources including digital approaches.
- Assessment for learning strategies, ways in which you can help apprentices to monitor and evaluate their own maths and English learning
- How to establish effective practice guidelines for gathering evidence for assessment and tracking

Session Objectives:

The session will give you the knowledge and confidence to:

- identify the skills needed to deliver maths and English in apprenticeships
- support those involved in delivery
- identify useful maths and English resources
- create resources to realistically embed learning
- implement digital approaches to support apprentices' maths and English development.
- help apprentices monitor and evaluate their own maths and English learning
- examine assessment for learning strategies to help learners make progress
- gather evidence of learning
- create an assessment framework that can be used in the workplace

- establish effective practice guidelines for assessment and tracking in maths and English.

If you would like to attend this free session, please email the following details for each attendee to sarahsawyer@sctp.org.uk by Friday 26 September:

- First Name
- Surname
- Email address
- Phone number
- Job title

These details will be entered onto the ETF's booking system and will only be used for pre and post session communications. The ETF policy on data usages can be seen in their [privacy policy](#).

This session would be useful to all those involved in delivering apprenticeships, with responsibilities for facilitating apprentices' maths and English development.

Please forward this email onto other colleagues in your organisation who you think may be interested in this opportunity.
